**DR. LUIS  
NAVARRO**

THE VEIN TREATMENT CENTER  
NEW YORK, NEW YORK

# S

ince early in his professional career, Dr. Luis Navarro has dedicated himself exclusively to the treatment of varicose and spider veins. Dr. Navarro was drawn to this specialty by the consistent results not found in other cosmetic enhancement fields. "The level and speed of the cosmetic results obtained in the treatment of legs, hands, face and breast veins are by far above the norm," he says. He is also actively involved in the advancement of the specialty by developing and patenting several methodologies that have changed phlebology worldwide, including Endovenous Laser Ablations (EVLA), combined therapies and painless sclerotherapy. All treatments are performed in-office.
